

Considering a move to the cloud?

Our cloud migration team is here to assist you throughout every step of your cloud journey. Our Cloud migration services involve a well-formulated assessment, strategy and process.

ASSESS

DMC's Cloud Assessment tool will gather data to analyze your current landscape, identify risks, and note opportunities for optimization.

STRATEGIZE

Next, our team will utilize the findings from the cloud assessment to design an individualized plan including the type, configuration, and size of your migration.

LAUNCH

Liftoff - Migration begins! Whether it be a pilot migration to resolve issues or your full migration, our team will handle your go-live every step of the way.

OPTIMIZE

As your cloud journey begins, your DMC team will continue to monitor and optimize your resources to enhance performance and efficiency.
